

Colson Hi-Tech Performa Wheels (For 1 & 2 Series Casters)	(Flat/Grey) Non-marking thermoplastic elastomer tread bonded to polyolefin wheel core.	
Colson Hi-Tech Performa Wheels (For 4 to 6 Series Casters) Pt. no. 5.00008.559	(Round/Grey) Institutional thermoplastic elastomer tread bonded to polyolefin wheel core.	
Colson Polyurethane Hi-Tech (For 3 to 6 Series Casters)	Polyurethane tread mechanically bonded to ribbed polyolefin core.	
Colson Series 2 Plate/Swivel & Rigid Pt. no. 2.04056.441 (swivel) Pt. no. 2.04008.441 (rigid)	<ul style="list-style-type: none"> -Zinc Plated Finish -Double Ball Hardened Raceways -3/8" Hollow Axle -Wheel Bearing Grease Holes -Multi-Temperature Lube -4 inch wheel diameter -1 1/4 inch tread width -300 lb. capacity each 	
Colson Series 5 Plate/Swivel & Rigid Pt. no. 5.05209.459.2 (swivel) Pt. no. 5.05208.459.2 (rigid)	<ul style="list-style-type: none"> -Zinc Plated Finish -Double Ball Hardened Raceways -3/8" Hollow Axle -Wheel Bearing Grease Holes -Multi-Temperature Lube -5 inch wheel diameter -2 inch tread width -375 lb. capacity each 	
Jarvis KasterKat® wheels	A molded, red annular ring mixed with polyurethane, between the hub and our premium polyurethane tread. This process provides a chemical bond, eliminating the need for mechanical locks between the tread and hub. Our red annular ring also provides the smoothest rolling surface, with additional shock absorbing features not found in competitors' wheels.
